

Feature#	Feature Description	Test Case #	Test Case Description	P/F ?	Fails what?
1	Calendar Basics	1	Today is Red Selected day is highlighted	P	
		2	to green	P	
2	Calendar Month change		Month should change to		Month changes to the opposite direction
		1	the pointed direction	F	
		2	same as above	P	
	Calendar date color changes according to		Color of the date is blue if		Color changes even though it's not test
3	the type of schedule	1	the schedule is test	F	
		2	same as above	P	
			Color of the date is green if the schedule is		
		3	assignment	P	
			If the date has both test and assignment, color should be blue (prioritize		It changes to the color according to the recently added schedule, not prioritizing the test
		4	test)	F	
		5	same as above	F	same as above
		6	same as above	P	
4	Customized Appbar	1	Action menu	F	Do not know. Failed
		2	Customized color and style	P	
			See All Schedule button		
		3	on the app bar	P	
			Displaying all the schedules		
	Showing all the schedules				
5	on the new activity	1	on the activity	P	

6 Countdown	Countdown will be shown in the see all		
	1 schedule activity	F	It gives me wrong countdown Countdown starts from the selected date, not the today. Need to add another adapter.
	2 same as above	F	
7 Push Notification	3 same as above	P	
	Push notification		Does not give any notification.
	1 every morning	F	Works with a toast
	2 Test with alarm	P	Repetition is set to every minute for the grading purpose, but it will only notify once a day
	Change it back to push notification. No		
	3 toast with alarm.	P	
8 Sorting the schedules by the recently coming schedules	Sorted by the recently		Code did not have a sorting method
	1 added schedule	F	
	sorted by the recently		
9 Fling on schedule	2 coming schedules	P	
	1 Pops up delete button	P	
	2 Pops up edit button	P	
10 Deleting the schedule	After deletion, the color of the date does not		
	1 change back to black	F	Intent was not sent
	2 Correctly modified	P	
11 Editing the schedule	Edit button just deletes		
	1 the schedule	F	Was using wrong code
	Edit button does not		Still needs to figure out
	2 get the intent right	F	

	<p>Edit button does not</p> <p>3 edit the schedule</p>	F	<p>Still needs to figure out</p> <p>code was not distinguishing the minute. If else loop correctly formats the time in xx:xx.</p>
12 Time of the schedule	<p>Minute is not shown correctly when it is 00</p> <p>1 minute to 09 minute.</p> <p>Minute is now shown in</p> <p>2 in ten's digits.</p>	<p>F</p> <p>P</p>	
13 Multiple schedule on the same date	<p>Schedules just add up</p> <p>1 with a weird format.</p>	F	<p>Added another code to distinguish if the date has another schedule or not. If it does, it will separate them by the comma</p>
	<p>More than one schedule at the same time of the same date will be separated by a comma</p> <p>2 now.</p>	P	
14 Empty Schedule Description	<p>Empty description of the schedule will be now displayed as "Empty Schedule" instead of just</p> <p>1 a blank.</p> <p>Description has now hint of "schedule on the</p> <p>2 current date"</p>	<p>P</p> <p>P</p>
